## WRHE Program Application Requirements

The Western Reserve Health Education Residency and Fellowship Programs operate under the standard academic calendar year from July-June.

We participate in the National Resident Match Program, and interested candidates must apply online through the Electronic Residency Application Service (ERAS). All complete applications are reviewed on an individual basis. An application is considered complete when the following information has been received:

- Dean's Letter
- Medical School Transcript
- Written Personal Statement
- Three letters of recommendation (at least two of these should be from members of the Department of Internal Medicine at your school, affiliate, hospital or elective course, and current within the last 12 months)
- United States Medical License Examination (USMLE) Scores Part I and Part II
- Educational Commission for Foreign Medical Graduates (ECFMG) Certification (if applicable)

### Selection and Appointment:

The Selection Committee reviews applications available positions each year. We select the most qualified candidates to interview and rank based on the following criteria:

- Graduated from a U.S. or Foreign Medical School within the last two (2) years
- USMLE Steps I and II Passage with minimum score of 220 (Highly favored if Part III passed as well) - No failures at any level
- J-1 visa sponsorship considered on a case-by-case basis.

### Match Process:

You must register for the "Match" (NRMP), as we do not accept any applicants outside of the "Match".
